# COLOUR SELECTION TIPS

When painting your house, it's important to choose colours that are not only pleasing to the eye but that you can live with too.

Here is an easy 3-step guide to help you choose a selection of colours that harmonise.

**STEP 1**  
Select your colour of choice from the chart.

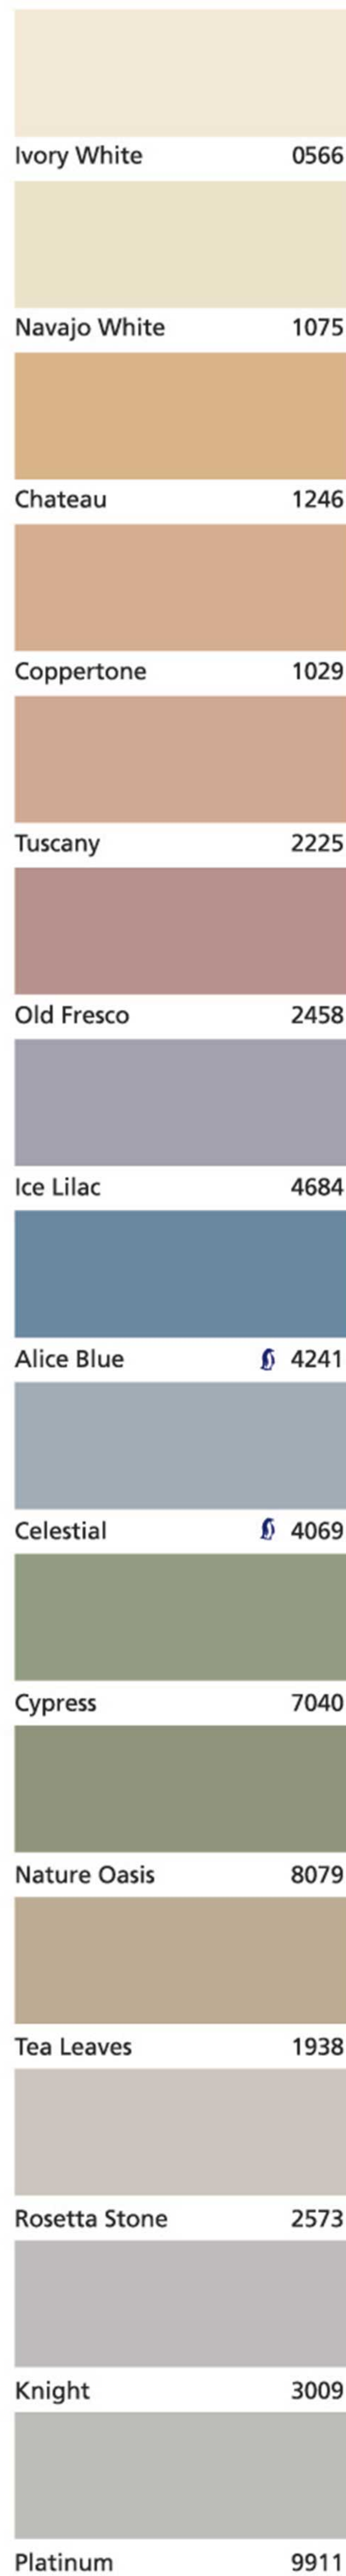

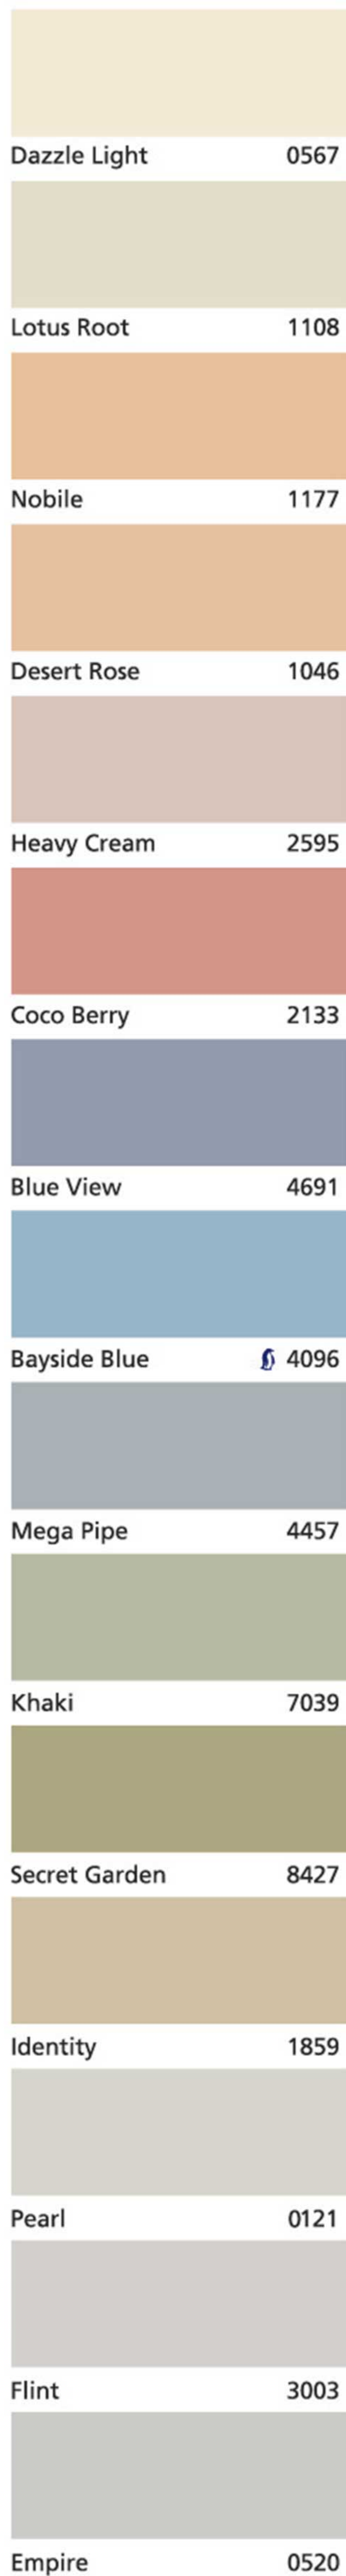

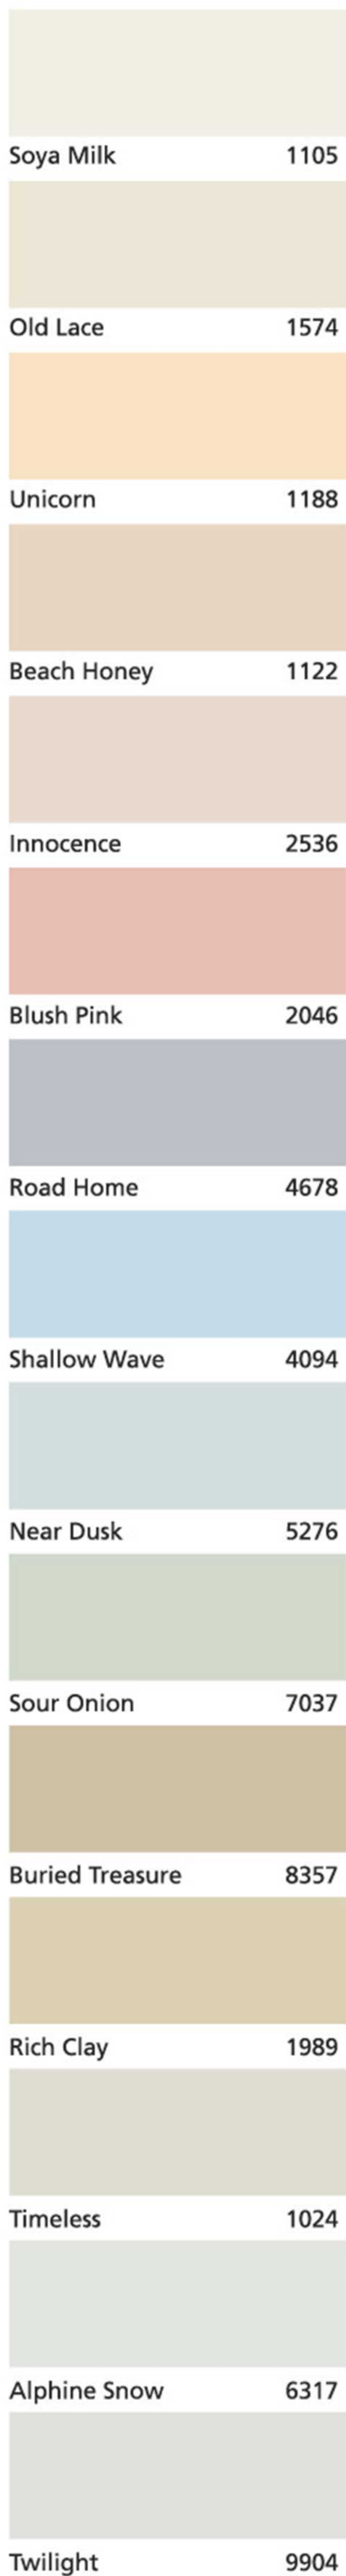

**STEP 2**  
Move vertically to select contrasting colour(s).

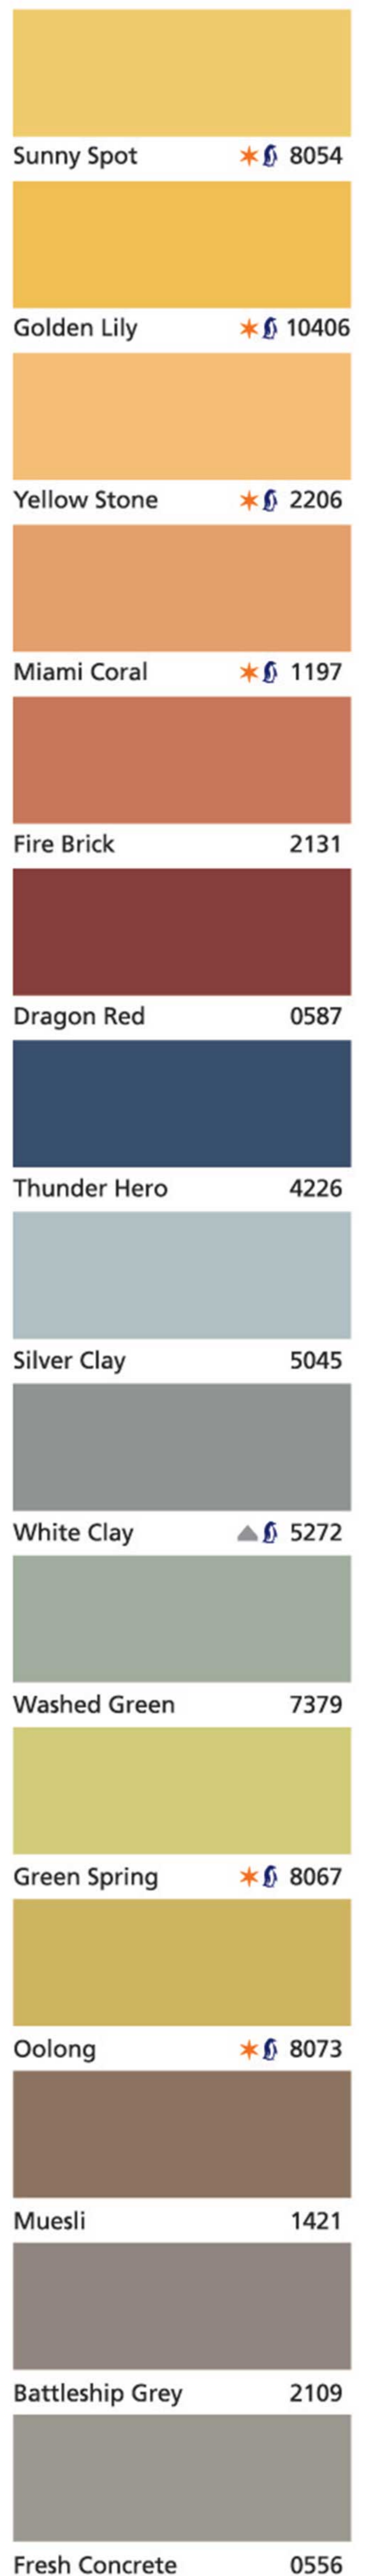

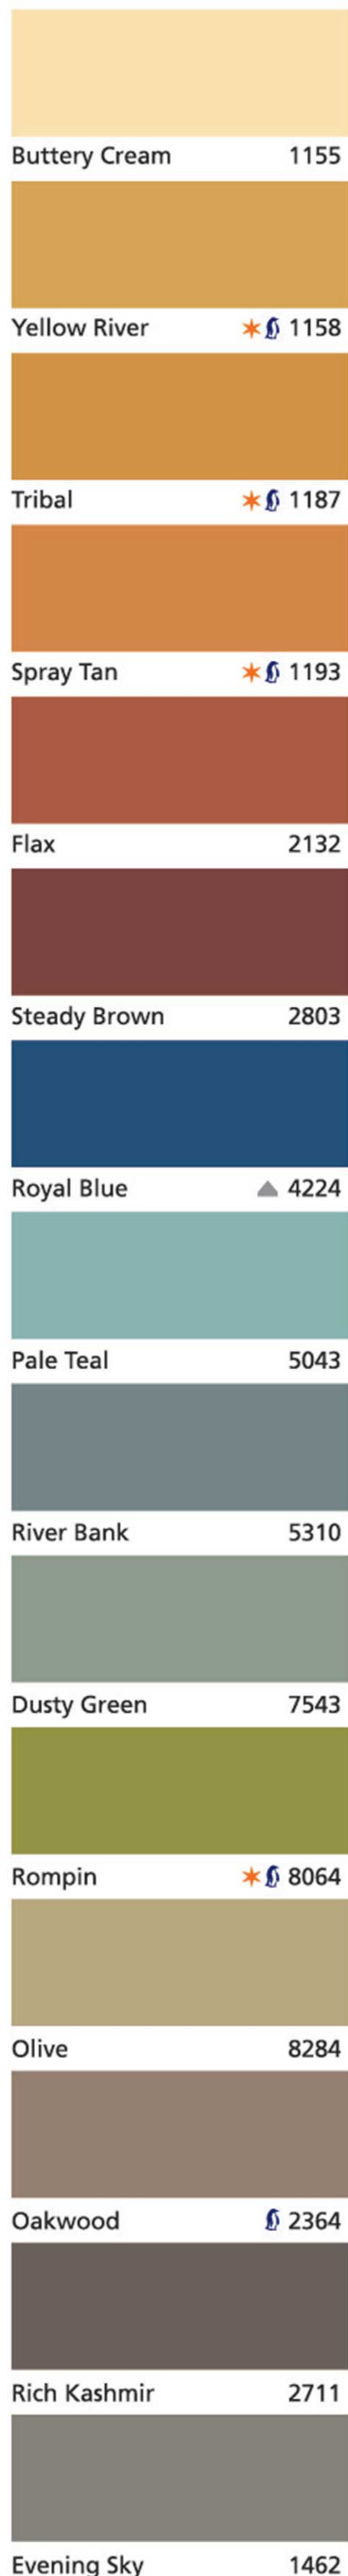

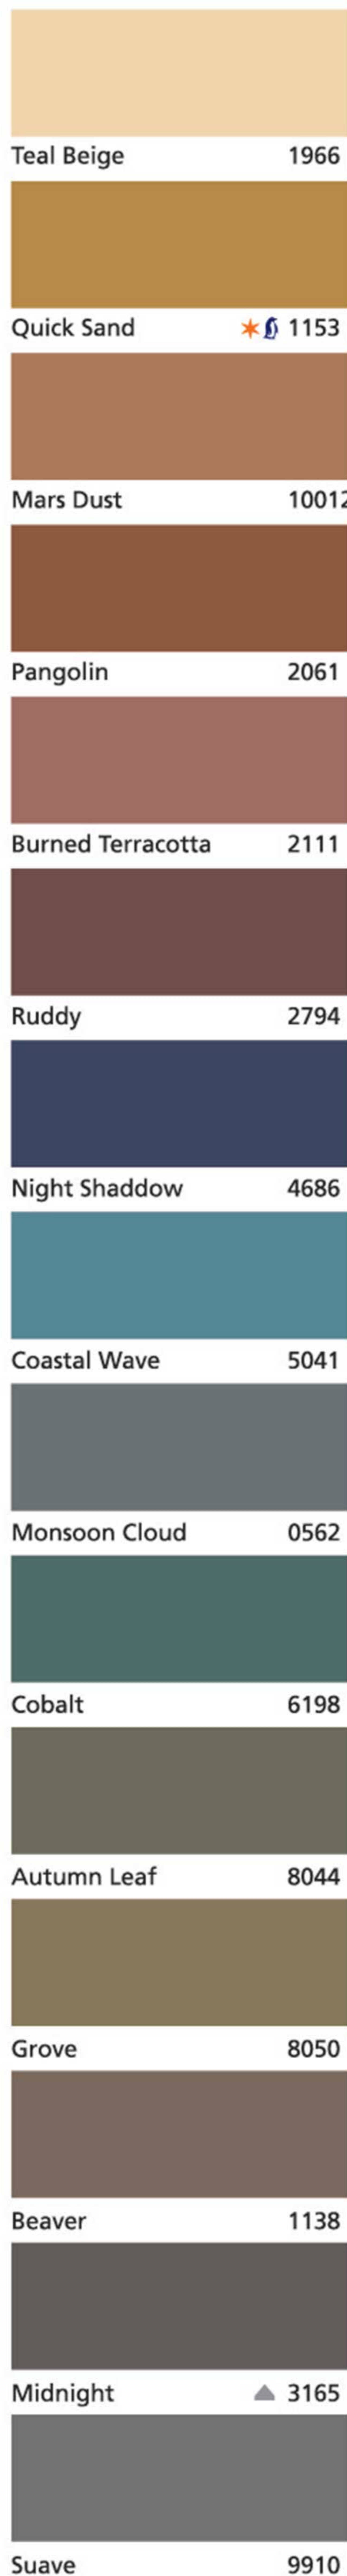

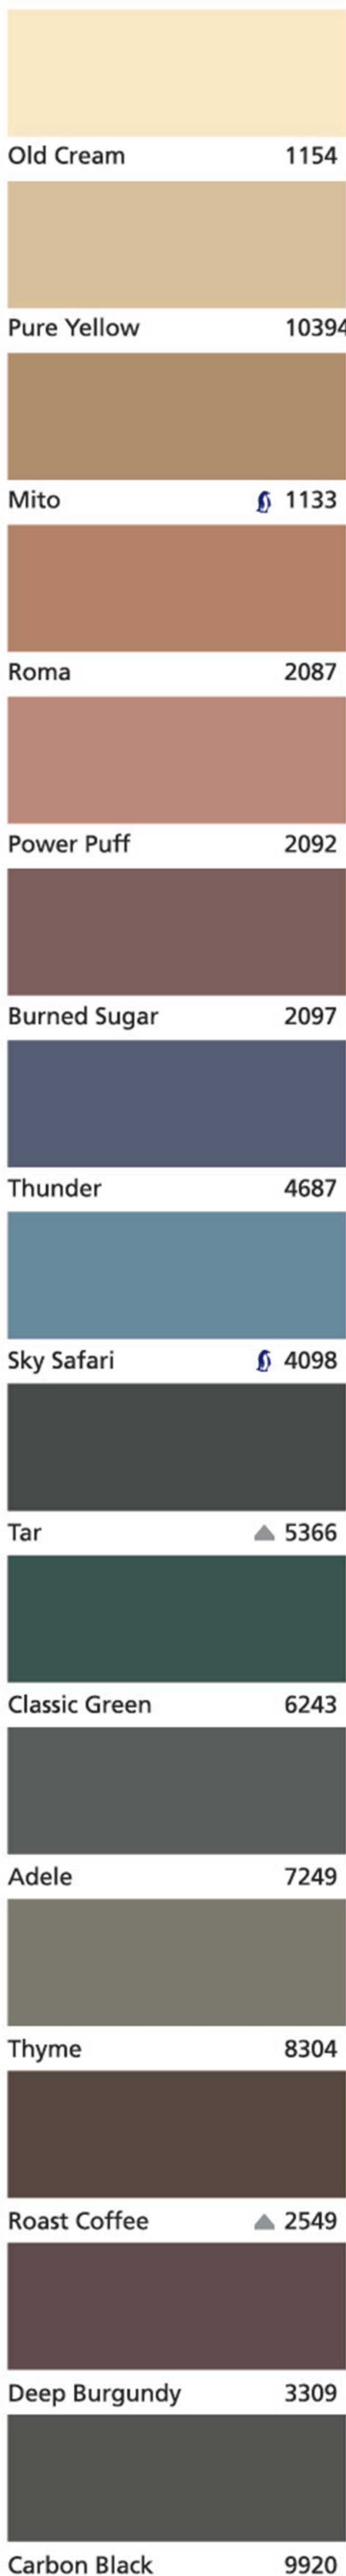

**STEP 3**  
Move horizontally to select complementary colour(s).

Flax 2132

## COLOUR CONTRAST

Contrast is simply defined as difference and may be used to great aesthetic effect when tastefully applied. Contrast may be expressed as a difference of hue, light and dark, or even cold and warm colours.

## THE RIGHT PAINT SYSTEM

A primer is a preparatory undercoat that seals the wall surface making it alkali and moisture-resistant whilst also ensuring superior topcoat adhesion to better bring out your colour of choice.

More Protection. Less Maintenance.

Less Maintenance. More Savings.

For absolute peace of mind, we recommend:

**1 coat of primer / sealer + 2 coats of topcoat**
